

Kathmandu Animal Treatment Centre

Together, let us create a city where cruelty is eliminated

MEMBERSHIP APPLICATION FORM

Become a friend of KAT today and help Nepal's animals

We need your help in reducing the numbers of sick and suffering animals on the streets of Kathmandu and cutting the rabies risk in local communities.

The Kathmandu Animal Treatment (KAT) Centre receives little government funding and is almost entirely reliant on donations and sponsorship.

We are the only organisation using Animal Birth Control (ABC) which is proven to reduce the numbers of stray and suffering dogs.

But we cannot continue without the help and support of our members all over the world.

You can help us by becoming a member and supporting our work. We have several categories of membership, to enable you to choose one which suits you best:
